

PH131010 BOAT SALAD BOWL WITH CUTLERY

When the salad for a change comes rowing to the table, the BOAT bowl is the one to start. The acacia wood cutlery is paddle-shaped. They can rest in the corresponding notches on the edge of the bowl. Nothing can stand in your way of enjoying an extensive boat trip in the kitchen sink while you wash your fresh salad greens. The enamel inner lining is food-safe, sturdy, and durable. Thanks to the whimsical idea by designer Jörg Langkop, the table is always set for new shores.
